REHABILITATION LITERATURE

Rehabilitation Literature is intended for use by professional personnel and students in all disciplines concerned with rehabilitation of the handicapped. It is dedicated to the advancement of knowledge and skills and to the encouragement of cooperative efforts by professional members of the rehabilitation team. Contributors of feature articles and book reviews are people of standing in their own fields and give free expression to their own ideas and opinions.

Rehabilitation Literature serves to promote communication among workers and to alert each to the literature on development and progress both in his own area of responsibility and in related areas. As a reviewing and abstracting journal, *Rehabilitation Literature* identifies and describes current books, pamphlets, and periodical articles pertaining to the care, welfare, education, and employment of handicapped children and adults. The selection of publications listed and their contents as reported is for record and reference only and does not constitute an endorsement or advocacy of use by the National Easter Seal Society for Crippled Children and Adults.

The National Easter Seal Society for Crippled Children and Adults does not stock for sale publications indexed in *Rehabilitation Literature*. List prices and addresses of publishers are given for information only. Copies should be obtained directly from the publisher or through local bookstores. Known addresses of authors of periodical articles follow their names.

Books for review and correspondence relating to feature articles and other editorial matters should be addressed to the editor. She will welcome your suggestions.

Rehabilitation Literature is an Easter Seal publication.
